Instructional Level:

Advanced

Learning Outcomes:

Upon completion of this course, participants will be able to:

- Select clients with diagnoses of ADHD and/or SPD who will benefit most from incorporating Interactive Metronome into their treatment plan;
- Demonstrate practical strategies to increase comfort level and motivation toward treatment for use with clients who exhibit ADHD/ SPD;
- Provide specific ideas for problem-solving when clients appear to have reached a plateau in treatment to assist them in making further gains.

*Note: This course covers information that pertains to licensed therapists and therapy assistants. COTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.

Specific Learning Outcomes for Speech-Language Pathologists & Audiologists:

- Select clients with diagnoses of ADHD and/or SPD who will benefit most from incorporating Interactive Metronome into the treatment of speech/language and cognitive/communicative skills;
- Demonstrate practical strategies to increase comfort level and motivation toward treatment for use with clients who exhibit ADHD/ SPD;
- Provide specific ideas for problem-solving when clients appear to have reached a plateau in treatment to assist them in making further gains.

*Note: This course covers information that pertains to licensed therapists and therapy assistants. SLPA professionals must practice IM under the supervision of a licensed SLP.

Instructor:

Linda Golden-Marx, OTR/L has been a pediatric occupational therapist for over 30 years. She has worked in public schools and has been in private practice for over 20 years in Westchester County, N.Y. Her practice focuses on children with diagnoses of sensory processing disorder, attention deficit hyperactivity disorder, and autistic spectrum disorder.

Linda graduated with a B.S. in occupational therapy from Boston University. She is certified in the administration and interpretation of the Sensory Integration and Praxis Tests and is trained in Therapeutic Listening the The Listening Program. Linda has been using Interactive Metronome with her clients since 2002 to improve attention, regulation and motor planning. She looks forward to sharing her strategies with other IM practitioners.
