

# IM in Education: Summer Intensive Camps

## Course Description:

This seminar will be about how my company, Accelerated Learning integrates IM into my Summer Intensive Learning Camps. I will explain the premise for the camp, why I started the camp, the success rate and show the improvements from the camp after two weeks.

Accelerated Learning's two week Summer Intensive camp incorporates one-on-one tutoring with Interactive Metronome, the Fast ForWord Family of Programs, and The Listening Program. The camp is intended to help a student's learning performance with emphasis on reading (Orton-Gillingham), math or writing.

The camp runs from 9:00 – 1:00 Monday thru Thursday and 9:00 AM – 3:00 PM Friday for "Fantastic Fridays." Our Friday programs include "Learning on the Log" outdoor activities like rafting, canoeing, hiking, and light swimming/wading. They will have fun while working as a group to solve problems utilizing skills learned during camp.

**\*Contact hours are offered pending successful completion of a written exam at the end of the course.**

## Target Audience:

This course welcomes the following professionals who have completed the Interactive Metronome Certification Course.

- Speech and Language Pathologist
- Speech and Language Pathology Asst
- Audiologist
- Occupational Therapist
- Certified Occupational Therapy Asst
- Licensed Medical, Rehabilitation or Mental Health Professional
- Music Therapist
- Educator

## Instructional Level:

Advanced

## Learning Outcomes:

Upon completion of this course, participants will be able to:

- Describe how improving timing & rhythm can be used to increase a child's ability to learn through using basic IM exercises;
- Implement a specific approach to IM training in order to facilitate the development of reading fluency;
- Explain how improving a child's motor skills leads to better body awareness, control, and increased attention during other programs in camp in order to derive greater overall benefit.

**\*Note: This course covers information that pertains to licensed therapists and therapy assistants. COTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.**

## Specific Learning Outcomes for Speech-Language Pathologists & Audiologists:

Upon completion of this course, participants will be able to:

- Describe how improving timing & rhythm can be used to increase a child's ability to attend, comprehend, remember & learn through using basic IM exercises;
- Implement a specific approach to IM training in order to facilitate the development of reading fluency;
- Explain the relationship between motor planning/sequencing and language/learning and how improving timing & rhythm for motor planning & sequencing skills leads to improvement in cognitive processing & learning.

**\*Note: This course covers information that pertains to licensed therapists and therapy assistants. SLPA professionals must practice IM under the supervision of a licensed SLP.**

**Instructor:**

Laura has a Masters in Elementary Education and is a certified teacher for Kindergarten – 8th grade. She's trained in the Orton-Gillingham methodology from Kindergarten – Adult. Her educational journey started when her daughter was diagnosed with Dyslexia and ADHD back in 2003. She learned about Interactive Metronome when her son did the program that year as well to help with focus and slight attention issues. Her daughter did the program in 2004 to help boost her learning. Laura received her IM certification in 2007 when she was running a school for autistic children.

Laura uses Interactive Metronome in her learning center to help students increase fluency, processing, attention and overall brain function. It is a part of the daily routine in her Summer Intensive Learning Camp. She is currently incorporating IM into her reading instruction, especially with the students who are currently working on increasing attention and fluency.

Laura owns Accelerated Learning, Inc. in downtown Decatur, GA where she and her Orton-Gillingham-trained tutors and Interactive Metronome Certified instructors offer one-on-one instruction. The center also offers other programs specifically targeted to help a child learn, such as Interactive Metronome, Fast ForWord, and The Listening Program.

**Disclosures:**

**Instructor Financial Disclosure(s):** Laura received an honorarium for the development and presentation of this course. She does not receive royalties or any other form of compensation for the continued publication and use of educational materials she has authored. Laura does not sell or receive compensation for the sale of Interactive Metronome products.

**Instructor Nonfinancial Disclosure(s):** Laura does not have any relevant nonfinancial relationships to disclose.

**Course Content Disclosure:**

The Interactive Metronome, Inc. has developed and patented a licensed technology trademarked as the Interactive Metronome®. (U.S. Patents #4,919,030; #5,529,498; #5,743,744; #6,719,690; other U.S. and foreign patents pending) Interactive Metronome, Inc. is the sole source of the following products: Interactive Metronome®, Gait Mate® and IM Home®.
