

# Combining IM and Other Neuro Technologies Self-Study

## Course Description:

When working with the adult patient, the therapist has a variety of technologies (CoreTx, Saeboflex, Hand Mentor etc.) to call upon to facilitate the best possible outcome. This course will review these technologies and provide the therapist with guidelines and techniques that will help facilitate his or her ability to integrate the Interactive Metronome with these other technologies.

**\*Contact hours are offered pending successful completion of a written exam at the end of the course.**

## Target Audience:

This webinar welcomes OT/COTAs and PT/PTAs who have completed the Interactive Metronome Certification course.

## Instructional Level:

Intermediate.

## Learning Outcomes:

Upon completion of this course, participants will be able to:

1. Demonstrate general knowledge of a variety of adult rehabilitation technologies, their therapeutic basis, therapeutic impact and effectiveness.
2. Develop an evidence-based treatment plan using a variety of technologies and the Interactive Metronome.
3. Adjust the Interactive Metronome treatment plan to enhance the effectiveness of other technologies and ultimately the outcome of the adult rehabilitation patient.

**\*Note: This course covers information that pertains to licensed therapists and therapy assistants. COTA and PTA professionals must practice IM under the supervision of a licensed OT or PT.**

## Instructor

**Andrew Dillen Hartley, OT** graduated from the University of Pretoria, South Africa, school of Occupational Therapy in 1995 and moved to the USA in 1996. He is co-owner of Advanced Therapy Solutions, Inc, an outpatient physical and occupational therapy company-serving clients of all ages in 4 locations. Dillen is experienced in multiple treatment approaches with a diverse population. Prior to starting his own company, Dillen was the director of therapy at Mary Black Regional Hospital. He has served on the board for the South Carolina Association of Rehab Professionals, the advisory board for Occupational Therapy Assistant Program at Greenville Technical College, where he also lectured for 2 years, and is a past board member as international liaison for the South Carolina Occupational Therapy Association. His main interest is in the treatment of deficits related to ADHD, ADD and learning disabilities with a variety of techniques. Currently he teaches the Interactive Metronome Certification course and the Advanced Interactive Metronome course: Making It Work.

**CEUs**

**Offered for:**

0.1 AOTA (OT/COTAs)

\*PTs & PTAs may submit paperwork to your state board for CEUs

**APPROVED PROVIDER of  
CONTINUING EDUCATION**  
by The American Occupational  
Therapy Association, Inc.

Interactive Metronome is approved by the Continuing Education board of AOTA to provide continuing education activities in occupational therapy. This program is offered for 0.1 CEUs (Intermediate Level; Professional area). The assignment of AOTA CEUs does not imply endorsement of specific course content, products, or clinical procedures by AOTA.
